Successful extracorporeal life support in sudden cardiac arrest due to coronary anomaly

Jung Wan Park, Jae Hyuk Lee, Ki-Sik Kim, Duk Won Bang, Min-Su Hyon, Min-Ho Lee, Byoung-Won Park

Abstract

Extracorporeal life support (ECLS) has recently been reported to have a survival benefit in patients with cardiac arrest. It is now used widely as a lifesaving modality. Here, we describe a case of sudden cardiac arrest (SCA) in a young
