Prospective randomized study comparing incidence of Doppler signal flow detected radial artery occlusion post-transradial percutaneous coronary intervention between Safeguard Radial versus TR band radial compression devices using a novel air-inflation technique

Victor Voon, Muhammad Ayyaz Ul Haq, Ciara Cahill, Kirsten Mannix, Catriona Ahern, Terry Hennessy, Samer Arnous, Thomas Kiern

#### Abstract

##### AIM

To compare post-percutaneous coronary intervention (PCI) radial artery occlusion (RAO) incidence between two conventional radial artery compression devices using a novel air-inflation technique.
