Artefactual angulated lesion on angiography: A case report and review of literature

Edroos SA *et al.* Artefactual angulated lesion on angiography

Sadat Ali Edroos, Jeremy William Sayer

Abstract

We present a case of a patient who presented with chest pain, and on diagnostic coronary angiography appeared to have a grossly angulated yet significant coronary stenosis. This was proven to be an artefactual appearance on further assessment with intravascular ultrasound imaging. We describe the causes and associations of coronary tortuosity with other arteriopathy, and highlight challenges in the
