Klotho in cardiovascular disease: Current and future perspectives

Javier Donate-Correa, Ernesto Martín-Núñez, Carmen Mora-Fernández,
 Mercedes Muros-de-Fuentes, Nayra Pérez-Delgado, Juan F Navarro-González

Abstract

Protein Klotho, beyond its role as a regulator of the phosphatemia, is also involved in the maintaining of the cardiovascular health, being associated its alterations with the development of cardiovascular damage and increased morbi-mortality. For all this, nowadays Klotho is the subject of a thorough
