Single incision slings: Are they ready for real life?

Manuela Tutolo, Dirk De Ridder, Frank Van der Aa

#### Abstract

29

AIM: To review of the efficacy and safety outcomes of different single incision slings (SIS) systems, also in comparison with traditional slings.

**METHODS:** A literature search was conducted in PubMed/MEDLINE database. The research was restricted to randomized and/or prospective trials and retrospective studies, published after 2006, with at least 20 patients with
