Oral lichenoid lesion: A review of the literature

Soraya de Mattos Camargo Grossmann, Camila de Nazaré Alves de Oliveira,
Giovanna Ribeiro Souto, Caroline Góes, Ricardo Alves Mesquita

Abstract

The oral lichenoid lesion (OLL) is response that occurs on the oral mucosa. The OLL include allergic response to the dental materials, drugs, and on graft-versus-host disease (GVHD). OLL to dental material happen when restorative materials, most commonly amalgam, are in direct contact with the mucosa in sensitized individuals. Medications that produce OLL are oral hypoglycemic
