Transurethral bipolar prostatectomy: Where do we stand now?

Hesham MFathy, Hussein A Hussein, Hosny K Salem, Sherif SAzab, Hany MEIfayoumy

Abstract

Transurethral resection of the prostate (TURP) is considered the gold standard surgical treatment of symptomatic benign prostatic hyperplasia (BPH). TURP has gained ground in urologic centers of excellence for its effective long term results with low incidence of complications. Far away from excellence, it associated with blood loss, and TUR syndrome particularly in patients with larger prostates. For this reasons, many
