**Evaluation of patient reported outcome measures post urethroplasty: Piloting a “Trifecta” approach**

Ong M *et al.* PROMs post urethroplasty: A “Trifecta”

Michelle Ong, Catriona Duncan, Matthew McGrail, Devang J Desai

## INTRODUCTION

Buccal mucosal graft urethroplasty has become the gold standard treatment for management of urethral strictures<sup>[1]</sup>. In evaluating patient outcomes from urethroplasty, patient reported outcome measures (PROMs) are utilized to fully evaluate surgical

### Evaluation of outcomes of Urethral Stricture Surgery ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6715091>

**Patient-reported outcome measures** (PROMs) are health questionnaires that aim to capture a **patient's** self-assessment of health and of the quality of care delivered before and **after** the treatment. A reliable **PROM** may be used by a urologist to directly **measure** the benefit that patients derive from the chosen method of treatment.
