### Management of antithrombotic agents in patients ...

<https://err.ersjournals.com/content/26/145/170001> ▾

Sep 30, 2017 - Bleeding is one of the most feared complications of flexible bronchoscopy. Although infrequent, it can be catastrophic and result in fatal outcomes. Compared to other endoscopic procedures, the risk of morbidity and mortality from the bleeding is increased, as even a small amount of blood can fill the tracheobronchial tree and lead to respiratory failure. Patients using antithrombotic agents ...
