Prospective Study

Attributable cost of a nosocomial infection ¹ in the intensive care unit: A
prospective cohort study

Binila Chacko, Kurien Thomas, Thambu David, Hema Paul, Lakshmanan

Jeyaseelan, John Victor Peter

Abstract

Aim: There is paucity of data on the impact of hospital-acquired infections (HAIs) on cost and outcome from intensive care units (ICU) in developing countries.

Methods: Adult patients (>18 years) admitted over 1-year, to a 24-bed medical

Attributable cost of a nosocomial infection in the intensive care unit: a prospec
