### Left renal venous hypertension "nutcracker" syndrome: managed by direct renocaval reimplantation

BH Stewart, G Reiman - Urology, 1982 - Elsevier

Abstract Since 1978 a diagnosis of left renal venous hypertension has been established in 3 patients. All 3 had otherwise unexplained left flank and abdominal pain, 2 had left renal gross hematuria, and 2 were found to have ureteral and peripelvic varices demonstrated ...

### Endovascular stent placement as a treatment for renal venous hypertension

MG Neste, DL Narasimham, KK Belcher - Journal of Vascular and ..., 1996 - Elsevier

COMPRESSION of the left renal vein between the superior mesenteric artery and aorta can cause venous hypertension, renal pelvic venous varicosities, and hematuria. This entity was first described in 1972 by De Schepper and was designated the "nutcracker" phenomenon ...
