**Biobehavioral assessment of the anxiety disorders: Current progress and future directions**

**Deah Abbott, Yasmin Shirali, J Kyle Haws, Caleb W Lack**

### Abstract

It is difficult to accurately assess and differentially diagnose the Anxiety Disorders. The current system of assessment relies heavily on the subjective measures of client self-report, clinical observation, and clinical judgment. Fortunately, recent technological advances may enable practitioners to utilize objective, biobehavioral measures of assessment in a clinical setting. The current body of literature on two of these
