ABO-nonidentical liver transplantation from a deceased donor and clinical outcomes following antibody rebound: A case report

Peruhova M *et al.* ABO-nonidentical LT

Milena Peruhova, Viktoriya Georgieva, Nonka Yurukova, Monika Sekulovska, Gabriela Panayotova, Antoaneta Mihova, Velislava Terzieva, Tsvetelina Veselinova Velikova

Abstract

BACKGROUND

Although ABO-nonidentical and ABO-incompatible liver transplantation (LT) are other options for end-stage liver disease treatment, the development of antibodies against blood group antigens (anti-A/B antibodies) is still a challenge in managing and follow-up of the recipients.
