Name of Journal: *World Journal of Nephrology***ESPS Manuscript NO:** 22248**Manuscript Type:** Minireviews**Sentinel lymph node biopsy in renal malignancy: The past, present and future****Tharani Mahesan, Alberto Coscione, Ben Ayres, Nick Watkin****Abstract**

Sentinel lymph node biopsy (SLNB) is now an established technique in penile and pelvic cancers, resulting in a lower mortality and morbidity when compared with the traditional lymph node dissection. In renal cancer however, despite some early successes for the SLNB technique, paucity of data remains a problem, thus lymph node dissection and extended lymph node dissection remain the management of choice in clinically node positive patients, with surveillance of lymph nodes in those
