Retrospective Study

Role of narrow band ultra violet radiation as an add on therapy in peritoneal dialysis patients with refractory uremic pruritus

Ranjeeta Sapam, Rajesh Waikhom

Abstract

AIM

To assess the role of narrow band ultraviolet B (UVB) as a treatment option in peritoneal dialysis patients with refractory uremic pruritus.

METHODS

In this retrospective study, 29 adult patients with end stage renal failure on peritoneal dialysis and who had refractory uremic pruritus were given narrow band UVB radiation as an add-on

Match Overview
