Oral alkali therapy and the management of metabolic acidosis of chronic kidney disease: A narrative literature review

Ahmed AR *et al.* Oral alkali therapy and the management of metabolic Acidosis of CKD

Adeel Rafi Ahmed, David Lappin

Abstract

Chronic metabolic acidosis is a common complication seen in advanced chronic kidney disease (CKD). There is currently no consensus on its management in the Republic of Ireland. Recent trials have suggested that appropriate active management of metabolic acidosis through oral alkali therapy and modified diet can
