

Biostatistics Statement

Title: Positioning and design by CT imaging in rigid endoscopic surgery of patients with Chronic Subdural Hematoma(CSH)--A preliminary observational study

Chief Investigator: Cheng Sun
Jiangsu Provincial Key Laboratory of Nerve Regeneration
Nantong University, Nantong City, China

This letter is to confirm that I have read the ethics application for his study, and in my opinion the statistical methods and techniques mentioned are appropriate for this research.

Please contact me in case of any queries.

Sincerely,

Cheng Sun
