

BIostatISTICS STATEMENT

The statistical methods of this study were reviewed by our corresponding author Professor Lin Chen, who is from Chinese People's Liberation Army General Hospital. Professor Chen is an expert of statistics. He has instructed many statistical methods of biomedical theses. Our research team has verified the preciseness of biostatistics used in this manuscript in order to fulfill the requirements of a meta-analysis of World Journal of Gastroenterology. Additionally, the authors gratefully acknowledge Xiu-Tang Cao, a biostatistical expert of Chinese People's Liberation Army General Hospital, for his kind help in statistical analysis.

The manuscript title: Expression of epithelial cellular adhesion molecule in gastric cancer: a meta-analysis
