

Biostatistics Statement

Name of Journal: *World Journal of Gastroenterology*

Manuscript Type: RETROSPECTIVE STUDY

Article title: Fecal microbiota transplantation induced remission of infantile allergic colitis through microecology re-establishment

Authors list: Sheng-xuan Liu, Yin-hu Li, Wen-kui Dai, Xue-song Li, Chuang-zhao Qiu, Meng-ling Ruan, Biao Zou, Chen Dong, Yan-hong Liu, Jia-yi He, Zhi-hua Huang, Sai-nan Shu

Corresponding Author: Sai-nan Shu, MD, Associate Professor of pediatrics, Pediatric Department, Tongji Hospital, No. 1095 Jiefang Road, Wuhan 430030, Hubei Province, China, snsu@tjh.tjmu.edu.cn

The statistical methods in this study were reviewed by Prof. Shuaicheng Li from the College of Science and Engineering, City University of Hong Kong. Statistical methods in this manuscript are adequately and appropriately which could verify the results.

A handwritten signature in black ink, reading 'Shuaicheng Li'. The signature is fluid and cursive, with the first name 'Shuaicheng' written in a larger, more prominent script than the last name 'Li'.

Assistant Professor, shuaicli@cityu.edu.hk
