

## Certificate of Biostatistics

27<sup>th</sup> Feb 2020

To whom it may concern,

Title of the study: SGLT2 inhibition reduces succinate levels and promotes butyrate synthesis in type 1 diabetic mice

Invited Manuscript ID: 03833678

I Dr. Vance Matthews, here by confirm that Mrs Sally Burrows (Biostatistician, Royal Perth Hospital) has read the ethics application (submitted with the manuscript) and assisted with determining the required number of animals for experiments.

Kind Regards,

A handwritten signature in black ink, appearing to read 'V. B. Matthews', followed by a period.

Dr. Vance Matthews

Senior Research Fellow,

UWA School of Biomedical Sciences and Dobney Hypertension Centre,

Level 3, MRF Building, Rear 50 Murray St, PERTH WA 6000,
