

Biostatistics Statement

Title: Adenosine 2A receptor contributes to the facilitation of post-infectious irritable bowel syndrome by $\gamma\delta$ T cells via the PKA/CREB/NF- κ B signaling pathway

This declaration is to verify that I have reviewed the study methodology, the statistical analysis, and verified all steps of the final data analysis.

Sincerely,

Cheng Lan, M.D, Ph.D, Professor of Medicine, Department of Gastroenterology, Hainan General Hospital, Affiliated Hainan Hospital, Hainan Medical University, Haikou 570311, Hainan Province, China.
