Rafael Moreno Gómez-Toledano, PhD, biostatistician of cardiology department, Instituto Ramón y Cajal de Investigación Sanitaria (University Hospital Ramón y Cajal), and Laboratory of Cardiovascular Pathophysiology (University Francisco de Vitoria), and “Margarita Salas” postdoctoral researcher of University of Alcalá,

CERTIFIES:

The statistical analysis of article entitled: **New environmental factors related to diabetes risk in humans: systematic review and meta-analysis of emerging bisphenols used in the synthesis of plastics**, was developed and verified at our department. I confirm that the statistical methods and techniques applied are very appropriated and performed rigorously.

If you require any further information, please do not hesitate to contact me.
