

## Certificate of Biostatistics

20 July, 2021

To whom it may concern

**Title of Study:** Frankincense-myrrh attenuates hepatocellular carcinoma by regulating tumor blood vessel development through multiple EGFR-mediated signaling pathways

This letter is to confirm that I have read the ethics application prepared for this study, and that in my opinion the statistical methods and techniques mentioned are appropriate for the research.

Please contact me if you have any queries.

Sincerely,

Yihui Deng, PhD, Professor, College of Chinese Medicine, Hunan University of Chinese Medicine, Changsha 410208, Hunan, China.
