

Certificate of Biostatistics

24 January 2024

To whom it may concern

Title of Study:

Upregulated long noncoding RNA prion locus lncRNA, testis expressed promotes progression and oxaliplatin resistance of colorectal cancer cells by regulating homeodomain interacting protein kinase 2 transcription

Chief investigator:

Sainan Li

The first Department of Surgery, the Fourth Hospital of Hebei Medical University, No.169 Tianshan Street, Yuhua District, 050011, Shijiazhuang City, Hebei Province, China

This letter is to confirm that have read the ethics application prepared for this study, and that in my opinion the statistical methods and techniques mentioned are appropriate for the research.

Please contact me if you have any querics.

Sincerely,

Guiying Wang

the second Department of Surgery

the Fourth Hospital of Hebei Medical University
