

26th May 2021

This is to certify that I have reviewed the statistical methods of the following study
'Role of endoscopic ultrasound guided fine needle aspiration/biopsy (EUS-FNA/B) in
the evaluation of intra-abdominal lymphadenopathy due to tuberculosis(TB)'
performed by Dr Harshavardhan Rao B, Department of Gastroenterology, Amrita
Institute of Medical sciences, Kochi, India; and found that the statistical methods are
adequately and appropriately described when they are used to verify the results and
statistical techniques are correct.

Mrs Greeshma C R

MSc Statistics, Lecturer

Department of Biostatistics

Amrita Institute of Medical Sciences

Kochi, Kerala, India.
