

To the editors of the World Journal of Gastrointestinal Endoscopy

Name of Journal: *World Journal of Gastrointestinal Endoscopy*

Manuscript NO: 87579

Manuscript Type: ORIGINAL ARTICLE

Case Control Study

Propofol sedation in routine endoscopy: a case series comparing target controlled infusion vs. manually controlled bolus concept

Biostatistics statement

Dear members of the editorial board,

I, Dr Med Vakilzadeh, Attending Physician in Department of Nephrology and Hypertension, University Hospital Lausanne, Lausanne, Switzerland with years of experience in Biostatistics in Clinical research certifies I revised the statistics used for the manuscript. All statistical analyses were performed with Stata 12.0. Results are presented as mean +/- standard deviation (SD). Differences between groups were calculated with Student's t-test, Wilcoxon rank sum test and Chi2 test whenever appropriate. A value of $p < 0.05$ was regarded as significant.

Best regards

Nima Vakilzadeh : MD, Attending Doctor, Department of Nephrology and Hypertension, University Hospital Lausanne, Lausanne 1011, Switzerland
