Montreal July 1<sup>st</sup>, 2021

I, Dr Giada Sebastiani, Associate Professor of Medicine and Associate Member of the Department of Epidemiology, Biostatistics and Occupational Health of McGill University, certify that that statistical analysis of the article entitled:

**“Non-alcoholic steatohepatitis in liver transplant recipients diagnosed by transient elastography and cytokeratin 18: a prospective study”**

Was performed and verified by two members of the Department of Epidemiology, myself and the biostatistician Xun Zhang.

Best regards,

Dr Giada Sebastiani, MD  
Associate Professor of Medicine
