BIostatISTICS STATEMENT

Title: Feasibility and Safety of Cryoballoon Ablation for Atrial Fibrillation in Patients with Congenital Heart Disease

MS Number: 46125

The statistics for the manuscript entitled, “Feasibility and safety of cryoballoon ablation for atrial fibrillation in patients with congenital heart disease”, albeit purely descriptive, were reviewed by a member of the Biostatistics team from the Montreal Health Innovations Coordinating Centre (MHICC), Université de Montréal.

Sincerely,

Paul Khairy, MD, PhD, FRCPC
Professor of Medicine and Research Chair, Université de Montréal
Director, Clinical Epidemiology and Outcomes Research,
Montreal Health Innovations Coordinating Center (MHICC)
