

## Biostatistics Statement

To whom it may concern,

Title: **Hypercoagulability detected by thromboelastography in patients undergoing elective total hip arthroplasty**

This letter is to confirm that I have read the ethics and biostatistics requirements for this study, and that all authors are satisfied that the statistical methods and analyses are of appropriate rigour and standard for our research.

Kindly contact me if you have any queries.

Sincerely,

A handwritten signature in black ink, appearing to read 'Wen-Shen Lee'.

Dr Wen-Shen Lee  
Anaesthetic Resident
