

CERTIFICATE OF BIOSTATISTICS

16 February 2022,

To whom it may concern,

I, Alice Bernasconi, Biostatistician, graduated at University of Milano-Bicocca in 2016, confirm that, in my opinion, the statistical methods and techniques, mentioned in the article entitled

“Short arm cast is as effective as long arm cast in maintaining distal radius fractures reduction: results of the SLAVER (Short vs Long Arm cast, the VERona trial) noninferiority trial”

are appropriate for the research.

I'm available for answering to any queries.

Sincerely,

Alice Bernasconi, MSc,

Fondazione IRCCS Istituto Nazionale dei Tumori,

Via Venezian 1, Milano, Italy.
