

Dear World Journal of Orthopedics,

Please find our statement regarding the Biostatistics Review Certificate.

As it stands, our manuscript is currently a PRIMSA-SCR Scoping Review article that does not include any statistics or patient-level data. As such, we do not feel that a biostatistics review certificate should be required. However, if the journal would like us to, we would be happy to run this project by our institutional statistician for their approval.

If you have any further question, be free to contact me. Thank you for your time.

Sincerely,

A handwritten signature in black ink that reads "Neeraj Vij". The signature is written in a cursive, flowing style.

Neeraj Vij
