Observational Study

Development of a protocol for videoconferencing-based exposure and response prevention treatment of obsessive-compulsive disorder during the Covid-19 pandemic

Sanjana Kathiravan, Subho Chakrabarti. Department of Psychiatry, Postgraduate Institute of Medical Education and Research (PGIMER), Chandigarh 160012, India

BIOSTATISTICS STATEMENT

Statistical analysis

The sample was characterized by using frequencies, means, and standard deviations. Loss to follow-up at any time was considered a dropout. Pre- and post-treatment comparisons were carried out using the **Wilcoxon Signed Rank test**.

Since very simple statistics were used in this study, it did not require a review by a statistician.

A photograph of a handwritten signature in blue ink on a light-colored piece of paper. The signature reads 'Subho Chakrabarti' and is underlined with a single blue stroke.
