

Article 32821

Conflict-of-interest statement:

MG has received travel grants from various companies to attend scientific and educational meetings, including Danone/nutricia, Abbott, Ferring, Casen Fleet, Vifor, Clinova, Tillots, Warner Chiclott, Norgine and Biogaia. They had no involvement in the writing or review of this manuscript or any of the research or review works completed by MG now or in the past and no service was received for these grants or payments for work made, in line with Cochrane author and editorial policies.

MG has not received honoraria, speaking fees, sat on advisory boards, owned stocks, patents or any conflicts of interests with commercial or other organisations in anyway.
