## **CONFLICT OF INTEREST STATEMENT**

The authors declare no source of funding or conflict of interest pertinent to this submitted manuscript.

## **ETHICAL STANDARDS AND PATIENT CONSENT**

This review is based on the author's personal experience and collection of cases. All images have been de-identified. There were no more than minimal risks and strong measurements were taken to protect personal information and to avoid invasion of privacy or breach of confidentiality. As such, informed consent and institutional review was not necessary.
