DATA SHARING STATEMENT

Dear Editor,

We are pleased to enclose, for your consideration, a manuscript entitled "TRENDS AND PREDICTIONS FOR GASTRIC CANCER MORTALITY IN BRAZIL" by Giusti et al. for publication.

Data sharing statement: Data sharing statement is not applicable, as this is an ecological-type observational study based on public domain data from the Brazilian government website.

We very much hope that ***World Journal of Gastroenterology*** will consider publishing this work and look forward to your response.

Yours sincerely,

Dyego Leandro Bezerra de Souza
