Comment [W用1]: Basic research and clinical research studies require a data sharing statement. The data sharing statement will be provided in the title page, and will be presented in the following form: Technical appendix, statistical code, and dataset available from the corresponding author at Dryad repository, who will provide a permanent, citable and open-access home for the dataset. In addition, a copy of the signed statement should be provided to the BPG in PDF format.

Technical appendix, Statistical code, and dataset available from the corresponding author at [[ghamarchehreh@gmail.com](mailto:ghamarchehreh@gmail.com)]. IT is a meta-analysis with no direct examination of the participants, so we took no informed consent for data sharing. No additional data are available
