Dear Editor,

This letter will confirm that the following manuscript for consideration in the World Journal of Nephrology: *What is The Optimal Level of Vitamin D in non-Dialysis CKD Population? Re-Evaluating Thresholds for Serum 25(OH)D Concentrations in Relation to Death, Kidney Progression and Hospitalization.*

included the data sharing statement in the main text, as follows:

No additional data are available.

Should you require additional information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, consisting of a stylized 'J' and 'G' followed by a dot, representing the initials of José L. Górriz.
