

Manuscript title: Effectiveness of Ferric Carboxymaltose for Iron Deficiency Anemia in Crohn's Disease Patients at a Tertiary Center in Brazil – A retrospective observational cohort study

Authors: Natalia Souza Nunes Siqueira, Livia Bitencourt Pascoal, Bruno Lima Rodrigues, Marina Moreira de Castro, Alan Sidnei Corrêa Martins, Dante Orsetti Silva Araújo, Luis Eduardo Miani Gomes, Michel Gardere Camargo, Maria de Lourdes Ayrizono, Raquel Franco Leal.

Affiliation: Inflammatory Bowel Disease Research Laboratory, Gastrocenter, Colorectal Surgery Unit, School of Medical Sciences, University of Campinas (Unicamp), Campinas, Brazil.

Patient informed consent statement: Patients were informed, but written consent was waived due to the retrospective methodology of the study. All efforts were made to ensure data confidentiality, as required by the Ethics Committee. The analysis used anonymous clinical data that were obtained from patient charts after Ethics Committee approval.

On behalf of all authors,

Raquel Franco Leal, M.D., Ph.D.
