

INFORMED CONSENT STATEMENT

Name of journal: World journal of clinical cases

Manuscript type: Case report

Posterobasal left ventricular aneurysm after myocardial infarction with normal coronary arteries: case-report

Roman Kalinin, Igor Suchkov, Nina Mzhavanadze, Adelphina Felician Ncheye

Informed consent statement: the patient was not required to give informed consent to this case report because the analysis used completely anonymous data; the consent was obtained before performing any medical investigation or start of treatment as required.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Igor Suchkov', with a horizontal line underneath.

Igor Suchkov, MD, PhD
