

INFORMED CONSENT STATEMENT

Journal: World Journal of Gastrointestinal Oncology

Manuscript number: 54428

Manuscript type: Original Research- Retrospective cohort study

Neutropenia in Colorectal Cancer Treated with Oxaliplatin-based Hyperthermic Intraperitoneal Chemotherapy: An Observational Cohort Study

This study did not need signed informed consent documents. Due to the retrospective nature of the study and the fact that more than 50% of patients were deceased, the Ethical Review Board did not require individual consent for this study

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Cashin". The signature is written in a cursive style with a large initial "P" and "C".

Peter Cashin
