Title: Does the addition of Braun anastomosis to Billroth II reconstruction on laparoscopic distal gastrectomy profit patients: A retrospective cohort study

Authors: Xiongguang Li, Xinxin Wang, Qiying Song, Di Wu, Shuo Li, Benlong Zhang, Liyu Zhang, Da Guan, Lu Liu

Correspondence to: Xinxin Wang, MD, PhD, Doctor, Assistant Professor, General surgery Department of Chinese PLA general hospital. 28th Fuxing Road, Beijing, China. 100071, 301wxx@sina.com.

This study is a retrospective cohort study. We are permitted by the Chinese PLA general hospital ethic committee to continue our study without signed informed consent forms or documents because no specimen of the patients has been used in our study. All we need in our study is clinical data of the patients.

Yours, sincerely

Xiongguang Li,

General surgery Department of Chinese PLA general hospital.

28th Fuxing Road, Beijing, China.
