

Signed Informed Consent Form(s) or Document

This manuscript does not involve “Signed Informed Consent Form”, as it was produced from previously anonymized, publicly available and free of charge data. The present manuscript used anonymous images to produce its analyzes and results, in a method that obeys the norms of medical bioethics. Thus, there was no direct or even indirect contact between researchers and patients, with no necessity for "Signed Informed Consent Form" to carry out our study.

Fabício Freire de Melo; Ph.D. (for all authors)

Signature:

A handwritten signature in dark ink that reads "Fabício Freire de Melo". The script is cursive and somewhat informal.
