

Statement of Informed Consent

05th of April 2015

Dear Editors:

The patient in the submitted case report (The Challenges of Banding Jejunal Varices in an 8 year old child) and his legal guardian (parent), had provided informed written consent regarding the banding procedure.

Both the patient and his parent had agreed on publishing the case report anonymously.

Yours sincerely;

A handwritten signature in blue ink that reads "Dalia Karim". The signature is written in a cursive, slightly slanted style.
