

Name of Journal: World Journal of Gastroenterology

ESPS Manuscript NO: 33762

Manuscript Type: ORIGINAL ARTICLE

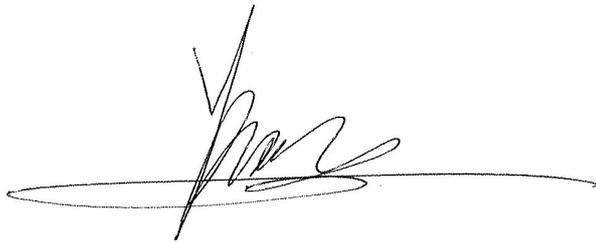

Title: Clinical predictors for the diagnosis of Sessile Serrated Polyposis Syndrome (SPS); A case control study

Authors: Wu, Yang; Mullin, Alexander; Stoita, Alina

Correspondence to: Wu, Yang

Informed Consent:

Patients were not required to give informed consent to the study because the analysis used anonymous clinical data that were obtained after each patient agreed to treatment by written consent.

A handwritten signature in black ink, appearing to read 'Yang Wu', is written over a horizontal line. The signature is stylized and cursive.

Dr. Yang Wu

Department of Gastroenterology

St Vincent's Hospital 390 Victoria St

Darlinghurst NSW 2010
