

# Informed Consent Statement

**Name of Journal:** World Journal of Cardiology

**Title:** Preventive fraction of physical fitness on risk factors in cardiac patients: retrospective epidemiological study

**Authors:** Maxime Caru, Ph.D., Laurence Kern, Ph.D., Marc Bousquet, M.D. and Daniel Curnier, Ph.D.

**MS Number:** 03442346

**Informed constant statement:** This letter is to confirm that I have read the ethics application prepared for this study, and that in my opinion the statistical methods and techniques mentioned are appropriate for the research. Informed consent was obtained from all participants, and this investigation was conducted in accordance to the World Medical Association Declaration of Helsinki, and depended on country rules (law n°2004-806; August 9th 2004). Also, the analysis used clinical data without storage of patient identifiers that were obtained after each patient agreed to treatment by written consent

Sincerely,

Daniel Curnier
