

25/07/2018

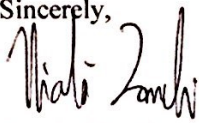

*Name of Journal: World Journal of Orthopedics*  
*Manuscript NO: 41131*

**Short-term differences in anterior knee pain and clinical outcomes between rotating and fixed platform posterior stabilized total knee arthroplasty with a new femoral component design**

**Bigoni Marco, Nicolò Zanchi, Turati Marco, Pirovano Gabriele, Zatti Giovanni and Munegato Daniele.**

**Informed consent statement:** Patients were not required to give informed consent to the study because the analysis used anonymous data that were obtained after each patient agreed to treatment by written consent

Sincerely,

Zanchi Nicolò
