## INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE STATEMENT

In the manuscript (the title is 'Therapeutic Effect of Curcumin Treated Experimental Colitis by Inhibiting CD8+CD11c+ Cells')

9-12 wk-old male C57BL / 6 mice (20 - 24g), were purchased from the Animal Center of Peking University Health Science Center (animal certificate number: SCXK 2012-0001).

All animals were housed in a specific pathogen-free environment at the animal facilities (NO.SYXK (Gan) 2005-0001) of Jiangxi University of Traditional Chinese Medicine.

The experimental protocols (JZ2015-016) were approved by Biomedical Ethics Committee Experimental Animal Ethics Branch of Jiangxi University of Traditional Chinese Medicine.
