

**Name of Journal:** World Journal of Gastroenterology

**Manuscript:** 33327

**Column:** Basic Study

**Title:** The Pharmacological Evaluation of NSAID-Induced Gastropathy as a “Translatable” Model of Referred Visceral Hypersensitivity

**Institutional Animal Care and Use Committee Statement:** All procedures involving animals were reviewed and approved by the Purdue Institutional Animal Care and Use Committee (IACUC Protocol number: 2014-100) in accordance with the NIH Guide for the Care and Use of Laboratory Animals and the Ethical Guidelines of the International Association for the Study of Pain ([www.iasp-pain.org](http://www.iasp-pain.org)) and are reported in accordance with the ARRIVE guidelines ([www.nc3rs.org.uk](http://www.nc3rs.org.uk)). All efforts were made to minimize the number of animals used and to avoid any undue pain.
