ETHICAL REVIEW COMMITTEE
Approval Notice**

Approval Number: 2021(KY-E-061)

Title: Surgical resection of intradural extramedullary tumors in the atlantoaxial spine via posterior approach

Research Contents: We retrospectively analyzed clinical databases for one-stage atlantoaxial IDEM tumor resection via posterior approach between January 2008 and January 2018. The analyzed data included tumor position, histopathological type, pre- and post-operative Japanese Orthopaedic Association (JOA) scores and Nurick grades, as well as postoperative complication and recurrence status.

Applicant: Dihua Meng, Jiaqi Wang, Kunxue Yang, Weiyou Chen, Cheng Pan, Hua Jiang

Application Department: Spine Surgery, The First Affiliated Hospital of Guangxi Medical University, Nanning 530021, Guangxi Zhuang Autonomous Region, China

Acknowledgement: This work was supported by the National Natural Science Foundation of China, No. 81860406, Guangxi Natural Science Foundation (2018GXNSFAA281127), and Medical Excellence Award Funded by the Creative Research Development Grant from The First Affiliated Hospital of Guangxi Medical University.

Date of Application: March 24, 2021

Date of Approval: March 25, 2021

Conclusion: This project fully considered and protected the rights and interests of the study objects. It meets the criteria of Ethical Review Committee. The Medical Ethics Committee of First Affiliated Hospital of Guangxi Medical University has approved the protocol.
