Sam Dayawansa, MBBS, Ph.D.

PROJECT ID#: N/A - Simultaneous Erb's and Klumpke's palsy: Case report

Dr. Dayawansa:

In its present form, federal regulations related to the protection of human subjects do not apply to the above referenced case report. Therefore, the case report does not fall within the boundaries of Institutional Review Board oversight. In the future, if a human subject research study is developed from this report (e.g., a case study involving analysis of multiple cases), you must request IRB review and approval prior to implementation of the study.

Respectfully,
